

Hello Jason Bernard!

Thank you for your interest in the 2007 Audi A8 4dr AWD Quattro LWB Sedan. I will respond to your email personally as soon as possible. Here is the link to a full, transparent disclosure:

<http://www.usmotorclub.org/7ad7.php?VIN=WAUMV44E17N006609>. US Motor Club is a nonprofit organization dedicated to the auto-financial health of its members. The price, \$34,897.00, is exceptionally low because we buy and ship vehicles directly from the dealer-only, wholesale auto auctions. You will see every vehicle comes with a money-back guarantee of condition provided by Manheim Auto Auctions - not the seller.

Through these links you will be given the opportunity to join the Club for FREE and save a lot. Calculate your own payments. Used vehicle leasing, \$581.00 per month on this car, gives you the same use value while creating money for other life needs. You can also sell your trade for a fair retail price. We have the only mechanism to get you out of an upside-down trade without a loss, cost, or future liability regardless of your deficit. You can buy, sell, trade, lease, refinance, or just research and analyze.

US Motor Club Members get the exact car they want to drive... Here are some other examples I've posted: <http://www.usmotorclub.org/buy.php?nwf=1.987>. If you can't find your dream car, please fill out a request for search and quotation form here: <http://www.usmotorclub.org/r4q.php?nwf=1.987>. I will search for it among the 600,000 + vehicles in the Manheim Auto Auction inventories, price it, finance or lease it, and ship it to you. Feel free to call me or reply to this email... There is absolutely no charge for any service, all 100% free, but I will appreciate a tax-free donation down the road if you feel I helped you save money, time and/or hassle.

The point is there are a lot of really good dealers out there with some exceptionally priced vehicles, but none of them are qualified to help, nor should they be involved, in your decision of when to buy your car or how to pay for it. I'm not qualified either! Only you can make that decision. However, as the past software engineers for the world's largest banks and auto lenders, we may be the only organization qualified to get you the facts and data so you can make an intelligent decision.

Virtually At Your Service,

Robert
